

Corporate Reporting

ING Group

ING Group is a global financial institution with a strong European base. Headquartered in Amsterdam, the Netherlands, ING Group has more than 52,000 employees offering retail and commercial banking services to customers in over 40 countries.

ING Group

ING Group became a standalone bank in 2014, with change they decided to embrace integrated reporting on financial and non-financial performance. Aim was to produce an Annual Report with sustainability information with a separate Sustainability Annex.

What we did

- Worked with ING on information to be incorporated into the Annual Report, as they began the journey of integrated reporting.
- ING wanted the report to meet GRI G4 Guidelines. With our direction and advice achieved G4 comprehensive in-accordance level.
- Our work comprised a detailed working group reviewing each indicator, ensuring the GRI G4 'comprehensive' level was met.

Results

- ING Group published the 2014 Annual Report, as a basic integrated report. This is something that will be developed and expanded in time.
- ING Group published the 2014 Sustainability Annex in accordance to 'comprehensive' of the GRI G4 Guidelines. A great achievement in a short time.
